Opening our podcast is a track from Felicity Urquhart's new album 'Landing Lights'. She says of this track:

"Sometimes no matter how much love and protection someone receives from family or friends they still end up falling. They feel like they betray those who love and accept them with all their faults, so they keep running and falling."

Many of the tracks featured have an acoustic beauty about them; banjo, harmonica, guitar, mandolin, percussion ...straight up, understated and delightfully listenable!

Make sure you 'tune in, turn on and drop out' to the last track. It's some trippy post-psychedelic rock from Sweden! It's 'The Soundtrack of Our Lives' with the opening track from their epic double album 'Communion'.
